Washington, June 12.—President Taft's callers to-day represented him as unperturbed by the tetics of the Roosevelt people at Chicago, confident in his nomination and in his election in November.

Visitors state that the only single doubt is due to the reports that money is being freely offered by the Roosevelt people to certain Southern delegates. The President, however, has little trepidation on that score. He is either personally acquainted with the MEMBERS OF ROUSE WILL

Joy B. cussed the situation with Charles F. Murphy, the Tammany Hall leader.

Their meeting gave rise to reports that a plan of mutual support by New York, lilinois and Indiana for a candidate at Baltimore was under consideration in case there should be no nomination by the convention upon the first few ballots. While Kentucky and Illinois delegates are for Clark, it was pointed out that New York is unpledged, and that the Indiana delegation support of Governor Marshall might be shifted to another candidate after a few ballots.

According to some of the most influential local leaders. New York's delegates expect to vote for Mayor Gaynor or Governor Dix on the first ballot, unless plans are changed at a conference to be held after the delegation reaches Baltimore. Among the candidates whom these leaders said were under consideration by the New York aclegation for succeeding ballots; besides Mayor Gaynor are Champ Clark and Governor Harmon, whose campaign manager, Lieutenant-Governor Nichels, of Ohlo, held a conference yesterday with Mr. Mack.

Before the Board of Fire Comm'soners yesterday afternoon, the new automobile fire engine was put through its paces and pronounced to be up to the standard in every way after the most severe tests. As a fire fighter it outdid the present automobile apparatus, and in the speed test, those who were present at the trial would not say anything as to its speed, because it might result in the board again appearing in the Police Court on the charge of violating the city ordinance against running motor vehicles beyond a certain fixed limit.
